

Before You Report to Campus Each Day

Do a symptom* check:

- ☐ Cough
- ☐ Shortness of breath
- ☐ Fever and/or chills
- ☐ Loss of taste or smell

Do a temperature check, even if you are asymptomatic*.

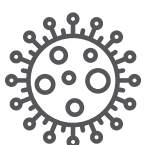

If you have a fever of 100.0, do not report to campus.

Make sure you have your face covering.

Face coverings must be worn by everyone inside a campus building. If you forget your covering, ask your supervisor for a disposable face covering.

*If you have even mild symptoms of illness, contact your health care provider and Caltech's Disability and Leave Administration Unit (DLAU) in Human Resources at 626-395-3092.
