Subject: Message from Student Affairs: Updated TCU shuttle operations

Dear TCU Faculty and Staff,

Due to Spring Break being extended by a week and TCU's response to COVID-19, we have updated our shuttle operations:

Shuttle routes

- Overall, with less students, faculty and staff on campus, we are reducing the number of shuttles and changing the routes. I have attached the routes that the shuttles will be running for rider convenience. The Transloc Rider App. (available for Apple and Android) will also continue to give you real time locations of the shuttles even though the changed routes will not be shown.
- We will continue to have two shuttles running on the current Blue Line.
- We will have one shuttle running a temporary east campus route that will service most of the high traffic areas on the east side of campus.
- Shuttles will be circulating constantly, so riders should only have a maximum 8 minute wait. Shuttles will not be parked at spots.

Cleaning protocols

Our drivers have been informed to disinfect all handrails and surfaces on the shuttles hourly, but it is still important that you practice good habits while on campus. Continue to be vigilant when it comes to washing your hands and avoid touching your face, eyes, and mouth. If there are multiple riders on the shuttle please make sure to practice social distancing by maintaining distance from other riders by leaving empty seats between you, if possible.

We will update this as TCU makes further decision on campus operations. We appreciate your understanding in this matter and should you have any questions or concerns, please feel free to reach out to our office. Continue to visit tcu.edu/coronavirus for campus updates.

Stay safe and healthy,

Jude L. Kiah, PhD
