

Employee Daily COVID-19 Responsibility

Before leaving home each day conduct the following daily health assessment to monitor for symptoms of COVID-19.

Exhibiting any listed symptoms?

YES

- Fever (Over 100° F)
- New cough
- New shortness of breath or difficulty breathing
- New chills
- New muscle aches
- Sore throat
- Headache
- Diarrhea
- New loss of taste or smell

Continue to monitor your health. Do not come to work or campus. Report your symptoms on the Health and Illness Report Form.

https://bit.ly/covid_form

- Struggling to breathe or fighting for breath even when inactive or resting
- Feeling as though you might collapse every time you stand or sit up

CALL 911. Do not come to work or campus.

If you are hospitalized due to COVID-19, please call the TCU COVID-19 Hotline, 817-257-2684.

Contact your health care provider.

A TCU Care Coordinator will follow up with you to notify supervisors of your absence and provide you guidance for returning to work.

NO

Protect yourself by maintaining good hygiene and prevention standards:

- Wash your hands
- Wear a face covering
- Maintain 6 feet of physical distance
- Clean and disinfect common spaces before and after use
