Official Charge to the Task Force

Return to Campus Task Force

Coronavirus Disease 2019 (COVID-19)

RCTF Purpose

Initial considerations for reopening University System of Georgia institutions. Each institution will be responsible for developing and implementing a plan that meets the needs of their specific institution.

The following assumptions were made in developing these systems for reopening:

1. All institutional plans for reopening will be informed by decisions and guidance from the Governor, the Governor's Task Force, the Department of Public Health, CDC, and appropriate local situations.
2. All institutional plans will include contingency plans for adapting to the reemergence of COVID-19, peaks, etc.
3. Institutional plans should account for possible/probable decreases in state appropriations, tuition and fee revenue, and losses in auxiliary funds.
4. With twenty-six institutions, there will be variations of the recommendations below. Each institution should create a plan that is specifically targeted for its unique circumstances.
5. While attempting to plan for and mitigate issues related to COVID-19, institutions should also stay focused on their mission/purpose; using this crises/urgency to reinvent/innovate delivery models, operational efficiencies, employee flexibility (telework, flex schedules, etc...)
